It is set in the backdrop of the majestic Aravalli Mountains offering breathtaking views of the Monsoon Palace (Sajjan Garh) as well a panoramic view as of Lake Pichola and the historic Udaipur City.

The true character of the resort's architecture is in the traditional construction known as "Tekri Work" (Ashlor & Rubble Masonry) that maximizes use of traditional materials, craftsmanship and locally available stones. This not only pays tribute to the native heritage of the region but also provides opportunities to the traditional craftsman, contributing significantly to the local economy. To ensure that the resort
